A Joint Initiative by the College of Leadership and Management, Women in Engineering and Young Engineers Australia

Engineers Australia Mentoring Programme

EA Mentoring Program is about connecting mentors and mentees to share professional insights and experience and provide guidance to aspiring and inspiring young professionals. Customised matches of mentors and mentees will be based on areas of interest and career goals.

With the opportunity to gain some valuable experience and insight into how to overcome challenges and barriers that might be affecting young mentees. Mentors have the opportunity to give back to the industry, share their experience and support fantastic young engineers early in their careers.

Selected members will be invited to join the program in which mentees are encouraged to engage with and then drive the relationship forward. The program will start in June and conclude in November with 3 key sessions:

1) Introduction to the Engineers Australia Mentoring Programme
2) Engineers Australia Mentoring Workshop
3) Engineers Australia Mentoring Conclusion

The key mandatory sessions are intended to promote demonstration of leadership, collaboration between participants, and recognition of achievement.

If you are interested in being involved in the programme, please register by filling out the application form and return to mentoring@engineersaustralia.org.au
