Managing Group Notifications

When you join one of the groups within ORNurseLink, visit that group’s ‘Settings’ area and make sure you select the activity updates you want to receive.

1. Navigate to the individual group
2. Click on ‘Settings’ in the group’s navigation menu.
3. Select the ‘Notifications’ tab to display the notification options.
4. Choose which group activity alerts you want to receive.
5. Click ‘Save changes’ to apply those settings.

- **Notify me of new group forum posts or replies**
  Be alerted when new topics are added to your group’s discussion area.

- **Notify me of new group members**
  Be alerted when new members join the group.

- **Notify me of new group files or comments**
  If you want to know when new files are shared with your group or someone comments on them.

- **Notify me of new group photos or comments**
  If you want to know when new photos are shared with your group or someone comments on them.

- **Notify me of new group videos or comments**

- **Notify me of new group events or comments**
  If you want to know when new events are added to your group.

- **Notify me of new group blog posts or comments**
  If you want to know when new posts are published or comments made in your group’s Blog.
Managing Group Subscriptions

In the Subscriptions tab select the frequency of alerts from the community group’s blog and discussion forum. You can receive alerts instantly or include them in your Daily or Weekly digest instead.
